

**Commercial Fisheries Data Collaboration Project**  
**Mid-Atlantic Fishery Management Council Advisory Panels**  
**June 5, 2020**  
**9:30-11:00 am EST**

**Webinar Participation and Details**

The webinar can be accessed at: <http://mafmc.adobeconnect.com/ap5june2020/>. Meeting audio can be accessed by following the prompts which appear after logging in to the webinar, or via telephone by dialing 1-800-832-0736 and entering room number 5068871.

The webinar is scheduled for ninety minutes to allow ample time for comments, questions, and feedback. The use of that entire time will depend on the participation by attendees.

**Objective:**

The purpose of this meeting is for AP members to develop recommendations on how the fisheries they participate in could be displayed on the [Mid-Atlantic Data Portal](#) and the [Northeast Ocean Data Portal](#). The data portals are used for a number of purposes, including planning, analysis, and outreach related to fisheries management, aquaculture, dredging, offshore energy development, and research. AP input provided during this webinar will support a joint project between the Northeast Regional Ocean Council (NROC), the Mid-Atlantic Regional Council on the Ocean (MARCO), and the Responsible Offshore Development Alliance (RODA) to update and improve the data portals. Mid-Atlantic Fishery Management Council staff will host this meeting and NROC, MARCO, and RODA staff will present and facilitate the discussion.

**Agenda**

**9:30 Welcome and Introductions**

*Julia Beaty, MAFMC*

**9:45 Overview of the Project and the Northeast and Mid-Atlantic Ocean Data Portals**

*Nick Napoli, NROC/MARCO*

*Fiona Hogan, RODA*

**10:00 Participant Input on Current or Planned Commercial Fisheries Data Projects**

*Fiona Hogan, RODA*

**10:45 Wrap Up and Additional Opportunities to Provide Input**

**11:00 End**
